

# Outcomes Report

## Canterbury Hospital Redevelopment

November 2024

# Master plan survey – What we heard

Thank you to everyone who shared their thoughts and ideas in the recent Canterbury Hospital Redevelopment survey. We had hundreds of responses from our wider community and the feedback will directly inform the redevelopment’s master plan and help shape the future of Canterbury Hospital.

## Here is what we heard

>88%

placed importance  
accessibility

90%

placed importance on parking and  
drop off/pick up areas

78%

placed importance on clinical,  
education, innovation and research

Some key items people would like to see as part of the Canterbury Hospital Redevelopment are:

green spaces and access to  
natural light

updated amenities for staff,  
patients and carers

improved accessibility,  
clear signage and  
wayfinding throughout

retain the façade and  
heritage elements

increased patient and  
visitor parking

Through your input we will plan and deliver a facility that:

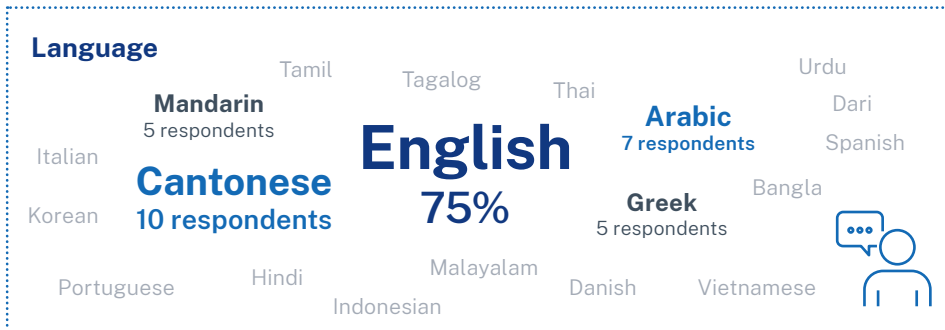

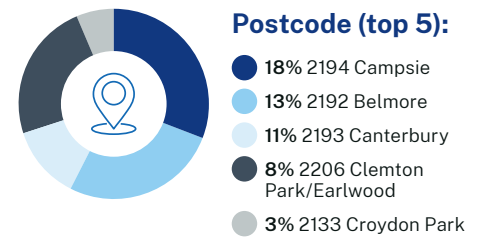

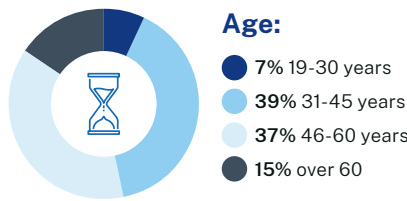

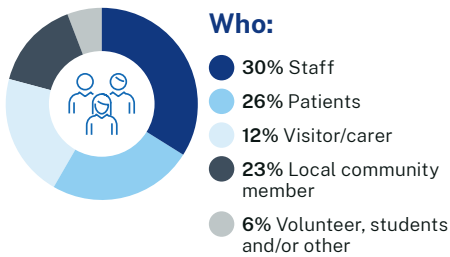

helps foster wellbeing among patients, staff and  
visitors

takes in the future needs of the community

As we continue to plan for the Canterbury Hospital Redevelopment there will be further opportunities for you to provide feedback.

## Who responded:

### How you heard? (top 5)

1. Work
2. Local letterbox drop
3. Social media
4. News
5. Email

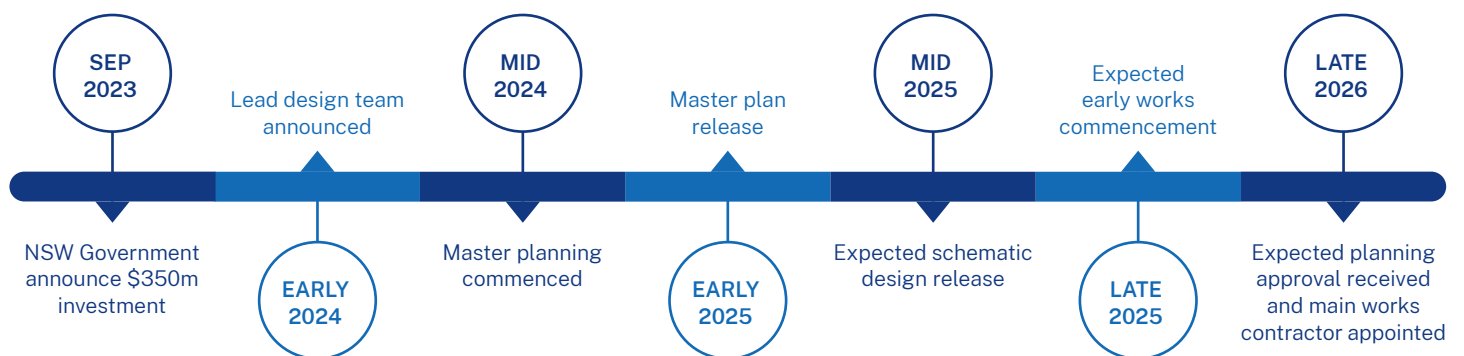

## Next steps

The project team is currently finalising the master plan. Consultation with a wide range of stakeholders and the community is crucial for the planning, design, and delivery of the hospital. This consultation and engagement will continue throughout the project lifecycle.

If you would like to be involved and kept up to date, scan the QR code to sign up to project updates here.

## Project timeline

\*These timings are indicative. Construction timeframes will be confirmed after further planning and a building contractor is appointed.
